

REMARKS

With the above amendments, the specification has been amended to incorporate the Japanese and PCT priority applications by reference. The claims have been amended to delete multiple dependency and place them in better form for examination. No claim has been narrowed in view of any reason for patentability.

Accordingly, it is believed that the application is in good condition for examination. Questions are welcomed by the below-signed attorney for applicants.

Respectfully submitted,

GRiffin & Szipl, P.C.
